

PRODUCTS IN USE

Thru-Hole/Donut Load Cell (LTH Series) paired with Instrumentation (USB Solutions, IPM650 Digital Display, IHH500 Handheld, or CSG110 Amplifier).

APPLICATION SUMMARY

FUTEK's Thru-Hole (Donut) Load Cells are major players when measuring the tightening of load directly. Our Thru-Hole Series (LTH) offers a variety of capacities and inner diameter sizes making it ideal for bolt fastening applications.

All FUTEK application illustrations are strictly conceptual. Please contact us with questions.
